

THE RANGES — ARTWORK, NEVER RETYPED

العلامات

COLOUR SYSTEM — THE DOCUMENT LAYER

نظام الألوان

Alex Navy أساس الصفحة #0A0378 Ground. The master value, sampled from the seal ring.	System Red لون مميز #E1251D Accent. One key word. Never body copy.	Paper النص والخلفية الفاتحة #FAF8F3 Type on dark, ground on light. Never pure white.	Alex Surface البطاقات فقط #221E5F Cards and panels only. Not a brand colour.
---	--	--	--

Paper on the ground measures **17.86:1**. System Red on it measures **4.05:1**, which clears 3:1 for display and sits just under 4.5:1 for body — **red is a headline colour here, never body copy**. The eighteen range colours are governed separately in the Design System.

TYPOGRAPHY — ONE FAMILY, TWO WEIGHTS

الخطوط

طعم أحلى ALEX FOODS الأربعاء ٤٠٠ ريجولار Hamburgefonstiv 0123456789	IBM Plex Sans Arabic Display and Arabic text · 700 / 400
	IBM Plex Sans Latin set alone · 700 / 400
	IBM Plex Mono Codes and specifications · 400

Two weights in any one layout. The packs are already loud. The type's job is order, not competition. Arabic carries 1.7 leading against Latin's 1.5, because the diacritics collide otherwise.

That line is the client's own, already running in their market creative. It is recorded here, not invented here — slogans are Foundation deliverable 4 and this is not one. **Note where it sits:** the red panel carries display type only, because red gives body copy just 4.41:1. This kit does not break its own rule on its own page.

BEFORE • قبل

FOUR BRANDS.
FOUR AUDIENCES.

Four pages, four follower counts, each starting from zero. The company that makes all four stays invisible.

NOW • الآن

ONE COMPANY.
FOUR RANGES.

Confirmed 18 September 2026. Alex Foods is the master brand. One presence compounds, and the ranges rotate inside it.

THE FOUR RANGES

النطاقات الأربعة

01

بيبو

BeBo

مساحيق المشروبات

Powdered drink sachets

The mother decides. The characters already own the child.

02

الراوي

AlRawy

عصائر ونكتار

Juice and nectar pouches

The only adult-facing range. Reassurance, never excitement.

03

تومان

2MAN

مثلجات

Ice pops, two live lines

Talks to the kid directly. They spend their own money.

04

بوليكا

POLEKA

حلوى جيلي

Jelly candy

Built to be asked for by name, out loud, in a shop.

THE RULE THAT GOVERNS EVERY LAYOUT

القاعدة

لون النكهة يملك الخلفية. لون النطاق يملك الشعار.

The flavour colour owns the field.

The range colour owns the logo.

The master owns the seal, and takes neither.

USAGE RULES

قواعد الاستخدام

• Arabic is written first. English is fitted to it, never translated into.

• Red on one word per headline, at display size only.

• Corner frame marks on every hero block.

• Grid overlay stays under 5% opacity. Always subtle.

• Two weights in any one layout. 400 and 700.

• The seal is placed as supplied. Never reconstructed.

حساب واحد. أربعة نطاقات.

ONE ACCOUNT. FOUR RANGES.

01 — PROFILE PICTURE

صورة الحساب

PRIMARY — ALEX NAVY · الأساسي

Default everywhere. Holds on a light feed and a dark one.

ALT — SYSTEM RED · للحملات

Campaigns and launches only, when the grid needs to break.

02 — EXACT SIZES (PIXELS)

المقاسات

ASSET · الأصل	PIXELS	WHERE
Profile picture صورة الحساب	320 × 320	IG, FB, TikTok — square, shown as a circle
Feed post, square منشور مربع	1080 × 1080	The default post
Feed post, portrait منشور طولي	1080 × 1350	Takes more feed space. Use for the ones that matter
Story / Reel ستوري وريلز	1080 × 1920	Full screen vertical
Google Business photo صورة جوجل	1200 × 900	Minimum. The listing is the company's, not a range's

03 — POST TEMPLATES

قوالب المنشورات

ALEX FOODS

THE MASTER SPEAKS

MASTER · statement

ALEX FOODS

جديد من أليكس فودز

A LAUNCH OR AN OFFER

LAUNCH · offer

ALEX FOODS

قوليلهم آه.

A PRODUCT POST

RANGE · product

Three repeatable layouts. **Navy** is the master speaking. **Red** is a launch or an offer, and it is the only full-bleed red in the system. **A flavour field** is a product post, and its type colour is set by the contrast table, never by eye.

ALWAYS	افعل	NEVER	ممنوع
+	Arabic is written first. English is fitted to it.	–	No health claims. صحي · مفيد · يقوي المناعة · غني بالفيتامينات.
+	One idea per post. Two ideas is two posts.	–	Never «١٠٠٪ طبيعي» or "100% juice". BeBo is a powder. AlRawy is a nectar.
+	The character leads the frame on POLEKA and BeBo.	–	No nutrition numbers without the client's written spec sheet.
+	Ink #141414 is the default type colour on a flavour field.	–	No price claims. «الأرخص» is unverifiable and starts an argument.
+	White type on a colour field carries a dark keyline.	–	No availability promises. Never name a shop that is not confirmed.
+	The BeBo banner keeps its navy keyline on any green.	–	Never POLEKA cola and strawberry in the same grid. ΔΕ 0.00.
+	Every bio names Alex Foods.	–	No company age claim. Their own materials say 20 and 25.

The NEVER column is not style, it is exposure. A food page can be reported and a paid ad account restricted on a single sentence. TSA runs the ad account, so it is TSA's risk as much as the client's. Governing principle: **if it did not come from the client in writing, we do not know it.**

05 — WHAT TO POST

ماذا ننشر

40% PRODUCT المنتج The packs, the ranges, the flavours. The product is the hero and there are eighteen SKUs to rotate.	30% CHARACTER الشخصيات BeBo's faces, POLEKA's animals, 2MAN's boy. The characters are the brands and they are already drawn.	20% MOMENT اللحظة The lunchbox, the hot afternoon, the family jug. The occasion, never a health claim about it.	10% COMPANY الشركة Alex Foods itself. The city, the people, the ranges together. No age claim until they confirm one.
---	---	--	--

06 — POSTING RHYTHM

إيقاع النشر

PLATFORM	FREQUENCY	WHY
Instagram — Reels + posts	5 / week	Main platform. Reels for reach, posts for the range grid.
Instagram Stories	Daily	Keeps the account warm. Polls and questions do the engagement work.
Facebook	4 / week	Bigger here than it is for most brands. BeBo and AlRawy talk to mothers, and in Egypt that audience is on Facebook.
TikTok	3-4 / week	Repurpose the Reels. Free extra reach, no extra shoot.

SPEC — EXECUTION PENDING CLIENT ACCESS · Meta admin and the Google account have not arrived

النكهة تملك الخلفية.

THE FLAVOUR OWNS THE FIELD.

The pack sits on its own flavour colour and the copy sits under it. The type colour is not a taste decision: it is read off the contrast table, and the verdict is printed on every frame below so anyone can check the layout against the system.

Both captions above are drafts from the Brand Voice Guide, written in Egyptian colloquial for Aly's ear rather than translated out of English. **No em-dashes, no health claims, no price, no shop named.**

NEVER — SHOWN, NOT DESCRIBED

ممنوع

HOW TO USE THIS

كيف تستخدم هذا

The swap is simple · التبديل بسيط

In Canva or Figma: flavour field as the background layer, pack cut-out from logos-transparent/ on top, red bar and ALEX FOODS at the corner, Arabic at the bottom in Plex Sans Arabic 700. **Arabic first, then fit the English.** That is the whole formula.

Check the type colour, do not guess it · تحقق من لون النص

Every field in this kit prints its own contrast verdict. If a field is not in the Design System's eighteen, it is not in the system and the post is off-brand. **Bright Pink #EC008C is the trap** — white gives 4.2:1, ink gives 4.3:1, neither is comfortable, so that field always carries a keyline.

Two things this kit will not do for you

The master has no tone block yet. The four ranges have register, sentence length and emoji policy written. Alex Foods itself does not, and it is the account that actually posts. **And product photography has not arrived** — every frame here uses pack artwork, which is not the same thing.
